Sovereign Operation Architect | CEO, Gahp

+234-814-607-9802 fareshy864@gmail.com

EXECUTIVE SUMMARY

Strategic Operational Engineer and Architect of "Unkillable" business systems. Expert at translating visionary "Founder Intent" into automated, AI-enabled execution engines and elimination of platform risk. Proven track record of turning chaotic environments into self-sustaining, high-yield enterprises through proprietary "Closure" frameworks and data-driven architecture. Known for building business foundations that allow revenue to scale without a linear increase in headcount.

TECHNICAL SKILLS & CORE COMPETENCES

Sovereign Systems: Cloud-exit strategies and decentralized data ownership.

Business Architecture: Sovereign Operation Design, Key-Man Dependency Elimination, Organizational Velocity Engineering, redesigning operating rhythms for multi-venture portfolios.

Financial Closure: Tying process adherence directly to EBITDA lift and DWC reduction.

AI Engineering: Designing autonomous agent workflows to replace manual middle-management.

Strategic Partnership: Serving as the "Systemic Hardening Engine" for Founders and Investors.

Fragility Auditing: Identifying and neutralizing "Single Points of Failure" in scaling portfolios.

PROFESSIONAL EXPERIENCE

Gahp enterprise operational closure firm | 2023 - Present

CEO & Co-founder

- Architected operational closure frameworks for high-growth firms, increasing exit-readiness by neutralizing systemic fragilities.
- Deployed automated execution cadences that eliminated "Key-Man" dependencies across diverse portfolio ventures.
- Deployed AI-enabled diagnostic surveys that reduced "Audit-to-Insight" time by 70%.
- Led remote operational audits and roadmap implementation for high-end medical groups in the UK and UAE, hardening their systemic infrastructure for scale.

Longraphics LLC | 2019 - Present

Chief Operation Officer & Head of Operation Services

- Advised diverse companies on eliminating "operational friction" to prepare for M&A (Mergers & Acquisitions) and high-valuation exits
- Directed digital transformation initiatives, converting creative workflows into scalable, automated production lines.
- Managed cross-functional teams of engineers and lead designers, holding senior contributors to a "Zero-Delay" delivery standard.
- Established the firm's first unified operating dashboard, synchronizing KPIs across 5+ ventures.
- Hardened operational security protocols for legacy infrastructure and high-value asset management.
- Implemented AI-enabled workflows that replaced manual scheduling and information flow management.

EDUCATION & CERTIFICATIONS

Lead Auditor Certification (IRCA)

B.Sc. Mathematics, OAU, Nigeria, 2022

M.Sc. Computer Science, NSSUKA, 2024

BOARD MEMBERSHIP

Strategic Advisor, CIMPRESS groups. Providing guidance on operational scaling and friction-less growth models.
